

## EGYPTIAN CORN.

*Auspicious melioris avi. Bona fide Quid pro quo!*

THE subscriber offers to farmers throughout the country the

### EGYPTIAN CORN.

Which, upon trial, was found to ripen planted even the last of July. It is estimated, from its very prolific qualities, to yield 150 bushels per acre, and weighs, by stated measure, 65 pounds to the bushel. This corn was produced by some procured direct from Mr. Jones, our consular agent, directly on his return from Egypt.

It needs no different culture from that of other varieties, and in the South two crops can be raised in one season on the same ground. It grows in the form of a tree, and thirty-four ears have grown upon one stock, and will average from five to fifteen. For domestic use it is unparalleled. When ground and properly bolted, it is equal in color and fineness to wheat flour. As a forage crop, by sowing in drills, or broadcast, for early feed, there is no kind of corn so well adapted to milch cows, and none that will yield half the value in stalk or corn.

It can be successfully grown in any State. I give the most satisfactory references that the corn is, in every respect, what I represent it to be; and, further, I am the only person throughout the country who has this variety of corn. Having secured a quantity, I am now able to fill all orders for those desirous of testing it.

Terms.—In order that all may receive seed, we have reduced the price to \$1.50 a package. Any person who will get up a club of five will receive a package gratis. Fifteen packages for \$10; fifty packages for \$20; one hundred packages for \$30. One package will contain enough to plant the following season from 20 to 30 acres; also directions for planting and culture. Address

F. E. G. LINDSEY,  
Editor and Proprietor "Interior Cornucopia,"  
Box 75 Abingdon, Va.

### INDORSEMENTS.

We, the undersigned, citizens of Washington county, Va., having examined some Egyptian Corn grown on this soil in this county, do hereby certify that some of the stalks produced thirty-four ears; the longest spike we noticed measured 10 1/2 inches in length, and 6 1/2 inches around. This corn, likewise, grew in the form of a tree, and presented a very healthy condition.

R. B. HAMILTON, Esq.,  
Raven's Nest P. O., Va.  
Capt. T. M. COBBLE,  
Craig's Mills,  
Capt. J. C. STANFIELD,  
Holston.

We, the undersigned, certify that the above gentlemen are actual residents of Washington county, Va., men of truth, whose veracity, purity from falsehood, fidelity and honesty none dare question, enjoying an eminent moral, social and political position in society.

JOHN PHILLIPS,  
P. M. Craig's Mills P. O., Va.  
JOHN M. HAMILTON,  
Es-Sheriff Washington, Co., Va.  
JERIEL L. LINDER,  
Acting Justice of the Peace.

### THE PRESS.

F. E. G. Lindsey, of Abingdon, Va., has the genuine "Egyptian Corn," which a great many farmers are delighted with. This is a new corn to this country, and has many merits that do not appear in other breadstuffs. It will ripen as far north as Boston, even when planted by the last of July. On rich land, it will yield 150 bushels to the acre, and weighs 65 pounds to the bushel; and for domestic use it is unparalleled. It resembles flour, and contains 95 per cent. of nutriment matter. In the South, two crops a year can be sown. A package can be had of Lindsey for \$1.50.—*Washington Constitutional Union.*

F. E. G. Lindsey has presented us with an ear of his "Egyptian Corn," heretofore advertised in our paper. The ear is about the size of Indian maize, and has solid grain. A lady who raised some of it last year sends us a certificate, stating that she saw some that had not been "plowed"—it was sown broadcast—that produced twelve ears to the stalk.—*Abingdon Virginian.*

In another column appears the advertisement of the Egyptian Corn. It is something new for this section, and is worthy of attention. Mr. Lindsey, the proprietor, and will vouch for the state-ments made. He has seen the corn grow, and thinks it would prove a success in Western Mis-souri. Try it.—*Climax (Mo.) Advocate.*

We direct special attention to the advertisement of Mr. Lindsey's Egyptian Corn. Mr. Lindsey re-fers the farmers of this section of the State to Judge J. W. Stevens, of this place. We hope that our farmers will send for a few hundred packages, and give it a trial. We are opposed to risking money on Yankee tricks, but in this instance we have every reason to believe that the Egyptian Corn is just what it is represented to be by Mr. Lindsey.—*Union, Rickey, Miss., Feb. 28, 1867.*

Several months since we informed our readers of the prolific qualities of the Egyptian Corn. It surpasses all anticipations, and is just the article needed in this country. To think that an acre of land can yield 150 bushels of good corn, and particularly when two crops can be gathered in a year, seems to be so exaggerated that it requires the many indorsements of the Press in general, and the best and most reliable men of Virginia to give it full belief.

We have received some of the corn from Mr. Lindsey. The sample is a beautiful one.—*Times, Nashville, Miss., Dec. 21, 1867.*

## NOTICE!

### Change of Firm and Removal.

WE have this day changed the name and style of the firm of Bewley, Keese & Co., to
